Mode of Program: Physical

1. BRIEF ABOUT ARAI:

The Automotive Research Association of India (ARAI) was established in 1966 as a co-operative industrial research centre by the Indian Automotive Industry and Government of India. An ISO 9001 certified as well as NABL accredited Laboratory, ARAI has grown substantially to become the prime research, development and testing institute in India bringing complete automotive technology under one roof. It acts as the nodal agency for all the technical activities in the automotive area - both for the Government of India and the Automotive Industry. ARAI is a vital link to make the vehicles safe, less polluting and efficient. ARAI provides its technical expertise to Government in framing regulations.
